blazers

How I love thy the blazer and if you only knew how talented the blazer is. Yes, that much so. The blazer is that one item that most people underestimate in creating their look. The blazer transforms the ordinary into stylish. Add personality; add a splash of colour to your outfit.

shoes

It all starts with the shoes. You choose if you want comfort over the look, they're your feet, babe. Pick the footwear with a bit of bling, and this transforms your look comparable to a style icon. Add a heel height, and the style vibe changes. Wear the wrong shoe, and you have destroyed your outfit.

accessories

Accessorizing is one of the most important parts of looking stylish and put together. Well-chosen accessories can take an outfit to a whole other level. We know that accessories are what complement the outfit and show that you have taken the time to focus on the details. We also know that accessories used wrong and without confidence can ruin the whole look easily.
